

[PAX Unplugged 2022](#)

The USTA will start attending PAX again this year! For those unfamiliar, PAX Unplugged is a board game convention in Philadelphia held the beginning of December. PAX Unplugged tends to be less commercial and more play-oriented than some other conventions. Since it is a smaller and shorter convention than the other main one we attend (GenCon), we will only be running one tournament, though we will run casual and learn to play boards in the play hall while we're there.
